INTRODUCTION

MICROLOG is an index and document delivery system providing access to current Canadian report literature of reference value from government and institutional sources.

The MICROLOG Index is a monthly publication providing citations to all reports located by our editorial staff.

The document delivery service supplies most of these documents to subscribers on either microfiche or paper. Titles available on fiche are indicated in the Index with a document accession number in the lower right hand corner of the citation in the Main Entry Section. Where xerographic paper copy is available the symbol "†" appears under the citation.

PUBLICATIONS INCLUDED

MICROLOG includes Canadian federal, provincial and local government publications. Also included are publications of non-government research institutions, professional associations and special interest groups.

The primary criterion for inclusion is reference value; thus research papers and studies are cited, while news releases and general information pieces are not. Annual reports, statistical reviews and financial statements are the only serials appearing in the Index.

MICROFICHE SUBSCRIPTIONS AVAILABLE

Documents from MICROLOG are available on microfiche under various subscription plans, ranging from the complete collection through subsets by level of government, geographic area or subject. The subsets available are listed in the Microfiche Collections section of the index.

CATALOGUING

Full AACR2 cataloguing, including subject headings, is available on cards or MARC tapes, or through an UTLAS file sharing agreement for each document in MICROLOG. Details are available from the publisher. UTLAS record numbers are provided at the end of each entry.

USING THE MICROLOG INDEX

The MICROLOG Index is divided into four parts: Main Entry Section, Subject Section, Title Section and Microfiche Collections. The Index contains both English and French entries.

MAIN ENTRY SECTION

This section lists all publications by main entry according to AACR2 rules. Added entries for individual and corporate authors and series are included, as are cross-references from variant forms of names. Each main entry in the MICROLOG Index is computer-assigned a unique four-digit reference number. This is used to refer the user to the complete Main Entry citation from the Title and Subject Sections and serves no other function.

SUBJECT SECTION

All documents cited in the Main Entry Section are analysed in the Subject Section. Items are listed under subjects by title, and authors are noted in parentheses. In addition, the reference number of the complete citation in the Main Entry Section is included.

TITLE SECTION

As a further point of access most documents are listed by title. Documents not having easily identifiable or unique titles (e.g. annual reports) do not appear. As in the Subject Section, the reference number of the Main Entry citation is included.

MICROFICHE COLLECTIONS

This section provides listings by fiche accession number and short-title for all documents in each microfiche collection.

MICROLOG est un index et un système de livraison de documents donnant accès aux rapports canadiens courants, provenant de sources gouvernementales et institutionnelles, et ayant une valeur en tant que référence.

L'index MICROLOG est une publication mensuelle mentionnant tous les rapports trouvés par notre personnel de rédaction.

Le service de livraison de documents fournit aux abonnés un grand nombre de ces documents sur microfiche ou sur papier. Les titres disponibles sur microfiche sont indiqués dans l'index grâce à un numéro d'entrée de document qui se trouve dans le coin droit inférieur de l'entrée de la section des inscriptions principales. Si une copie xérogaphique sur papier est disponible, le symbole "†" figure au dessous de l'entrée.

PUBLICATIONS TRAITES

MICROLOG inclut les publications du gouvernement fédéral canadien, des gouvernements provinciaux et des administrations municipales. Il traite également les publications des institutions de recherche non-gouvernementales, des associations professionnelles et des groupes d'intérêt particulier.

Le critère principal de l'inclusion est la valeur en tant que référence; ainsi, les articles et les études de recherche y figurent, tandis que les communiqués et la documentation d'intérêt général n'y figurent pas. Les rapports annuels, les périodiques de statistiques et les états financiers sont les seules publications périodiques qui figurent dans l'index.

ABONNEMENT AUX MICROFICHES DISPONIBLE

Les documents de MICROLOG sont disponibles sur microfiche, et ceci, selon de divers programmes d'abonnement, depuis l'abonnement à la collection complète jusqu'aux

abonnements partiels par gouvernement, par région géographique et par matière. Toutes les collections disponibles figurent sur la section Collections de microfiche de l'index.

CATALOGAGE

Le catalogage RCAA2 complet, vedettes-matière comprises, pour chaque document dans MICROLOG, est disponible sur fiche, sur bandes de MARC ou par un accord de partage de fichier avec UTLAS. Les détails sont disponibles par l'entremise de l'éditeur. Les numéros d'entrée d'UTLAS figurent à la fin de chaque entrée.

UTILISATION DE L'INDEX MICROLOG

L'index MICROLOG se divise en quatre parties, la Section des inscriptions principales, la Section des matières, la Section des titres et Collections de microfiche. L'index est en anglais et français.

SECTION DES INSCRIPTIONS PRINCIPALES

Cette section énumère toutes les publications par entrée principale, selon les règles de RCAA2. Elle comprend des entrées supplémentaires pour les auteurs particuliers, les auteurs collectivités et les séries ainsi que les renvois réciproques de noms variants. Chaque inscription principale de l'index MICROLOG est doté d'un numéro de document unique à quatre chiffres, que lui attribue l'ordinateur. Ceci offre à l'utilisateur l'accès de la section des matières et de la section des titres à l'entrée complète trouvée dans la section des inscriptions principales; il ne sert à aucune autre fonction.

SECTION DES MATIERES

Tous les documents traités dans la section des inscriptions principales sont analysés dans la section des matières. Les items se classent selon les matières et par titre; les auteurs sont mentionnés entre parenthèses. En outre, y figure le numéro de référence de l'entrée complète qui se trouve dans la section des inscriptions principales.

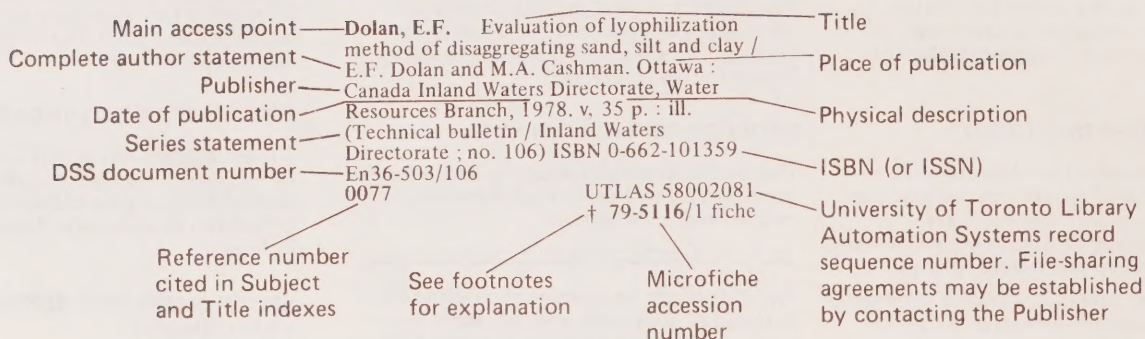

SECTION DES TITRES

Afin d'être plus accessible, la plupart des documents se présentent par titre et par ordre alphabétique. Ceux qui n'ont pas de titre facile à identifier ou particulier (par exemple, les rapports annuels) ne figurent pas dans cette section. De même que dans la section des matières, le numéro de référence de l'entrée des inscriptions principales est mentionné.

COLLECTIONS DE MICROFICHE

Cette section fournit les listes de tous les documents offerts dans le cadre des divers programmes d'abonnement disponibles par numéros d'entrée et titres des documents.

Sample Main Entry

All microfilmed documents in this Index are available by individual order.

Xerographic paper copy or Microfiche copy

Prepayment or Deposit Accounts preferred. For quotes or other information, please contact the Document Delivery Centre, Micromedia Limited, 144 Front Street West, Toronto, Ontario, M5J 2L7 Telephone: (416) 593-5211

Tous les documents sur microfiche traités dans cet Index sont disponibles sur commande individuelle.

Copie xérographique sur papier ou Copie sur microfiche

Nous préférons les paiements d'avance ou sur votre compte-dépôt. Veuillez contacter le Service de livraison des documents pour de plus amples renseignements ou pour une cotation: Micromedia Limited, 144 Front Street West, Toronto, Ontario, M5J 2L7 Téléphonez: (416) 593-5211.
